## REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

### TO THE SHAREHOLDERS AND THE BOARD OF DIRECTORS OF JOINT STOCK COMPANY "THE STATE EXPORT-IMPORT BANK OF UKRAINE"

#### *Introduction*

We have reviewed the accompanying interim condensed consolidated financial statements of Joint Stock Company "The State Export-Import Bank of Ukraine" and its subsidiaries (the "Bank") as at 30 June 2010, comprising of the interim condensed consolidated statement of financial position as at 30 June 2010 and the related interim condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended and selected explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standard IAS 34, "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

#### *Scope of review*

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

## 1. Principal activities

The State Export-Import Bank of Ukraine (the “EximBank”) was founded in 1992. It was registered at the National Bank of Ukraine (the “NBU”) on 23 January 1992 and on 18 September 2000 was re-registered as a joint stock company. Currently EximBank operates under a general banking licence #2 renewed by the NBU on 27 May 2009, which provides EximBank with the right to conduct banking operations, including currency operations.

As at 30 June 2010 and 31 December 2009, 100% of EximBank’s shares were owned by the Cabinet Ministers of Ukraine on behalf of the State of Ukraine.

Historically, the main focus of EximBank’s operations was servicing various export-import transactions. Currently, EximBank’s customer base is diversified and includes some large industrial and State owned enterprises. EximBank accepts deposits from the public and makes loans, transfers payments in Ukraine and abroad, exchanges currencies, invests funds and provides cash and settlements, and other banking services to its customers.

In addition to the main banking activities, one of the activities of EximBank is to facilitate, on behalf of the Ukrainian Government, the administration of loan agreements entered into between the Ukrainian Government and other foreign governments. EximBank acts as an agent on behalf of the Ukrainian Government with respect to loans from foreign financial institutions based on the aforementioned agreements. The loan proceeds are advanced to various enterprises within Ukraine on the basis of separate loan agreements between EximBank and Ukrainian enterprises.

A letter from the Cabinet of Ministers dated 4 August 1995, which was subsequently formalised in an Agency Agreement dated 19 September 1996, confirms that the responsibility of EximBank is to act as an agent of the Ukrainian Government for the above described activities and thereby the loan obligations and related risks belong to the Government.

These interim condensed consolidated financial statements comprise EximBank, its subsidiaries (together referred to as the “Bank”). A list of consolidated subsidiaries is as follows:

“Ukreximleasing”, a 100% owned subsidiary was founded in 1997 and operates in Ukraine in the leasing business.

“Eximleasing” Ltd, a 100% owned subsidiary was founded in 2006 operates in Ukraine in the leasing business.

## 2. Basis of preparation and accounting policies

### Basis of preparation

These interim condensed consolidated financial statements for the six-month period ended 30 June 2010 have been prepared in accordance with IAS 34 “Interim Financial Reporting”.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with Bank’s annual consolidated financial statements for the year ended 31 December 2009.

These interim condensed consolidated financial statements are presented in thousands of Ukrainian hryvnia (“UAH”) unless otherwise indicated.

### Changes in accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Bank’s annual financial statements for the year ended 31 December 2009, except for the adoption of new standards and interpretations noted below.

*IFRS 3 “Business Combinations” (revised in January 2008) and IAS 27 “Consolidated and Separate Financial Statements” (revised in January 2008)*

The revised standards were issued in January 2008 and became effective for financial years beginning on or after 1 July 2009. The revised IFRS 3 introduces a number of changes in the accounting for business combinations that impact the amount of goodwill recognised, the reported results in the period that an acquisition occurs, and future reported results. The revised IAS 27 requires that a change in the ownership interest of a subsidiary is accounted for as an equity transaction.

Therefore, such a change has no impact on goodwill, nor does it give rise to a gain or loss. Furthermore, the revised standard changes the accounting for losses incurred by the subsidiary as well as the loss of control of a subsidiary. The changes introduced by the revised Standards are applied prospectively and did not have any impact on these interim condensed consolidated financial statements.

#### Improvements to IFRSs

In April 2009 the IASB issued its second omnibus of amendments to its standards, primarily with a view to removing inconsistencies and clarifying wording. There are separate transitional provisions for each standard. The adoption of the following amendments resulted in changes in accounting policies but did not have any impact on the financial position or performance of the Bank.

- IFRS 8 Operating Segment Information: Clarifies that segment assets and liabilities need only be reported when those assets and liabilities are included in measures that are used by the chief operating decision maker. As the Bank’s chief operating decision maker does review segment assets and liabilities, the Bank continues to disclose this information.
- IAS 7 Statement of Cash Flows: Explicitly states that only expenditure that results in recognising an asset can be classified as a cash flow from investing activities.
- IAS 36 Impairment of Assets: The amendment clarifies that the largest unit permitted for allocating goodwill, acquired in a business combination, is the operating segment as defined in IFRS 8 before aggregation for reporting purposes. The amendment had no impact on the Bank as the annual impairment test is performed before aggregation.

Other amendments resulting from Improvements to IFRSs to the following standards did not have any impact on the accounting policies, financial position or performance of the Bank:

- IFRS 2 Share-based Payment
- IFRS 5 Non-Current Assets Held for Sale and Discontinued Operations
- IAS 1 Presentation of Financial Statements
- IAS 17 Leases
- IAS 38 Intangible Assets
- IAS 39 Financial Instruments: Recognition and Measurement
- IFRIC 9 Reassessment of Embedded Derivatives
- IFRIC 16 Hedge of a Net Investment in a Foreign Operations

The following new or revised standards and interpretations effective from 2010 did not have any impact on the accounting policies, financial position or performance of the Bank:

- Amendment to IAS 39 “Financial Instruments: recognition and measurement” - Eligible Hedged Items
- Amendment to IFRS 2 “Share-based Payment” - Group Cash-settled Share-based Payment Transactions
- IFRIC 17 “Distribution of Non-Cash Assets to Owners”

The Bank has not early adopted any other standard, interpretation or amendment that was issued but not yet effective.

#### Reclassifications

The following reclassifications have been made to the statement of income for the six-month period ended 30 June 2009 to conform with the current year’s presentation.

<i>Amount</i>	<i>Previously reported</i>	<i>As reclassified</i>	<i>Comment</i>
(23,656)	Other impairment and provisions	Net gains/(losses) from available-for-sale investment securities	To achieve better presentation
(115,281)	Change in fair value of investment securities designated at fair value through profit or loss	Net gains/(losses) from investment securities designated at fair value through profit and loss	To achieve better presentation
69,711	Fee and commission income – currency conversion	Net gains/ (losses) from foreign currencies and precious metals – dealing	To achieve better presentation
(100,484)	Other impairment and provisions	Allowance for loan impairment	To achieve better presentation
8,431	Fee and commission income	Interest income	To achieve better presentation

### 3. Segment information

For management purposes, the Bank is organised into three operating segments based on products and services as follows:

Retail banking	Includes products offered on standard terms and conditions (as per the tariffs approved in the standard procedures) that do not require individual approach and are mainly offered to retail customers;
Corporate banking	Includes complex products that require an individual approach and are mainly offered to corporate customers;
Financial institutions and Investments	Includes products for securities transactions or for rendering services to financial and investments market participants (interbank operations, stock market, etc.);
Other/unallocated	Other operations not directly allocated.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance, as explained in the table below, is measured differently from profit or loss in the consolidated financial statements. Income taxes are managed on a group basis and are not allocated to operating segments.

For the purpose of segment reporting, interest is allocated based on a transfer pool rate determined by Assets and Liabilities Committee based on the Bank's cost of borrowing.

No revenue from transactions with a single external customer or counterparty amounted to 10% or more of the Bank's total revenue in six-month period ended 30 June 2010 and 2009.

The following table presents income and profit, certain assets and liabilities information regarding the Bank’s operating segments for the six-month period ended 30 June 2010:

**17. Related party transactions**

In accordance with IAS 24 “Related Party Disclosures”, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form. All state-owned and controlled entities are considered as related parties of the Bank.

Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

The outstanding balances of related party transactions as at 30 June 2010 and 31 December 2009, and related income and expense for the six-month periods ended 30 June 2010 and 2009 are as follows:

## 18. Capital adequacy

### *NBU capital adequacy ratio*

The NBU requires banks to maintain a capital adequacy ratio of 10% of the amount of risk-weighted assets, computed in accordance with the UAS.

As at 30 June 2010 and 31 December 2009, the Bank's capital adequacy ratio on this basis is as follows:

	<i>30 June 2010 (unaudited)</i>	<i>31 December 2009</i>
Main capital	15,569,208	9,460,540
Additional capital	3,672,719	3,708,552
<b>Total capital</b>	<b>19,241,927</b>	<b>13,169,092</b>
<b>Risk weighted assets</b>	<b>41,088,438</b>	<b>39,069,508</b>
Capital adequacy ratio	46.83%	33.71%

Regulatory capital of Tier 1 comprises Tier 1 capital (Main capital) consisting of paid-in registered share capital, reserves less expected losses, and Tier 2 capital (Additional capital), consisting of credit risk provisions, asset revaluation provision, current profit, subordinated capital and retained earnings. Tier 2 capital is limited to 100% of Tier 1 capital.

*Capital adequacy ratio under Basel Capital Accord 1988*

The Eximbank’s capital adequacy ratio, computed in accordance with the Basel Capital Accord 1988, with subsequent amendments including the amendment to incorporate market risks, as at 30 June 2010 and 31 December 2009, comprise:

	<b>30 June 2010 (unaudited)</b>	<b>31 December 2009</b>
